# COSMETICS TRA SUONI E COLORI

Lefay SPA Method has created and uses a line of personalised dermatological beauty products for face and body treatments. The same exclusive products are available for sale in our shop. The Lefay SPA dermatological cosmetic line helps the skin to breathe, allowing it to rediscover its natural beauty. For this purpose the products are rich in different natural colours, representing the best-known, precious and well-experimented medicinal plants. The absence of colouring agents and chemical preservatives allows the formula to produce the essence and "fragrance" of nature on the skin. Just like the Lefay SPA Method the dermatological cosmetic line *Tra Suoni e Colori* is aimed at creating products that are increasingly focused on the unique, unrepeatable individual.

**ACQUA VITALE****MOISTURING CREAM***Moisturises dehydrated skin*
